

# Dalton Enterprises:

## Forging An Empire

## Synopsis

Built from the ground up by one man, Dalton Enterprises is now one of the largest company in the world. Now you can learn the story of its creation from the CEO..... blah, blah, blah. I could go on and on about my literary accolades, hint none that I haven't paid for, or how hot my vampires are in this book, but I wont. I want to tell you the real story. I went through a lot making this business, and i am proud of what I have accomplished. I want the world to share in my journey learn about it and from it. As my friends at Fox News would say I'm not perfect, and people can learn a lot from my mistakes. I will take you into the previously unknown aspects of my businesses. I will explain how the businesses I created function what more I want from it. I also wish to share what I do with all the rewards of my businesses.

I encourage anyone to pick this book up on your ereader if you have an interest in business or you want to learn how to start your own business. with this in mind I have sent free copies to charities around the world so anyone can read this book.
